**Angel in a fishbowl\***  
by John Johnson

Verse:

Angel in a fishbowl  
Wearing a party dress  
Don't have to ask the question  
I know the answer is yes  
I was too shy for reality  
to meek to meet the test  
Angel in a fishbowl  
Wearing a party dress

Chorus:

Love me, love me, love me  
The light that shines above me  
It's so sad and lonely when tomorrow eats your dreams  
Who is it that trapped you there  
Behind that glass where sad men stare  
And how many years must you be  
An angel in a fishbowl

Verse:

Did you wake up here one morning  
Did your Daddy say goodbye  
Did anybody ask you  
Did they stop to here you cry  
Does it almost now seem normal  
The way it all should be  
One more stranger coming  
Where one has just been

Chorus:

Verse:

May the light of freedom  
Shine down upon your face  
And let you gain the knowledge  
That there is some other place  
We are all bread in chaos  
Stumbled to the light  
But there's a force in nature  
That will contrive to make things right

Chorus:
