Fire

by John Johnson

**It's so odd walking down the street
When there's no one there to meet
In the shade or in the sun
All your plans have come undone**

Chorus:

Fire

Leave the theater in single file

Fire

Leave the theater in single file

**All the shops say they're closed
Where they've gone nobody knows
There's a line around the block
Can't tell time without a clock**

Chorus:

The sky clearer than it has....

All the buses ran out of gas

Don't worry deer, ducks and cows

We're shooting each other now

Chorus:

Outro:

Little monsters in the air

Where are you, everywhere
