**“Masters Dismissed”**  
(John Woog Johnson)

There's green deep waters all around me  
Waves and foam is all I can see  
I can't swim I only can dream  
There's green deep waters all around me

Bridge:  
Tell me where and why and who  
I don't know what it's coming to  
A hundred years of rules to lose  
Got no crime but got the noose  
Armies form when we don't agree  
Built by fear, fed by greed  
Who controls the secret need  
That makes us follow, die and bleed

Chorus:  
When you got a master you can't be free

Plan of escape deep in my head  
I must go now before my will is dead  
Follow your soul or you'll be led  
No time to sleep, I've made my bed

Bridge:  
Chorus:

What's my choice if they block my way  
Should I fight or should I stay  
If you kill the beast are you then the same  
Trapped in the cycle and fading away

Bridge:  
Chorus:
