**Naked Ape**  
by John Johnson

Verse:

Do you hear the secret signal?  
Everything left in our care  
Seems the answers are so simple  
When you're in and not out there  
Your gonna need God in a moment  
The footprints filling up with sand  
It's so odd acting normal  
Between the sunset and the land

Chorus  
Controlling our fate  
We're just a naked ape  
It isn't too late  
We're just a naked  
Just a naked ape

Verse:

Melting down the metal  
Fencing out the trees and the grass  
Then the big became so little  
And the first returning last  
The mountains disregard our presence  
Priorities on a different scale  
We must capture the lesson  
You gotta be brave enough to fail

Chorus:  
We won't hesitate  
We're just a naked ape  
We're just a naked  
Just a naked ape

Verse:

Rise in freedom from our captors  
Shrug away complacent chains  
We won't kneel for the masters  
Back on our feet again  
Courage rise from hidden places  
Uncooperative slaves  
Many lands and many races  
Rising up in massive waves

Chorus  
Changing our fate  
We're just a naked ape  
It isn't too late  
We're just a naked  
Just a naked ape

Naked Ape by John Johnson – page 2

Verse:

Arising on the final morning  
We've never been so aware  
No regrets and no worries  
We're just happy to be there  
And the stars lit up like mid day  
Here and back in no time  
Gave the answer to our question  
Just be glad you're alive

Chorus:

Controlling our fate  
We just a naked ape  
We won't hesitate  
We just a naked ape  
We're storming the gate  
We just a naked ape  
It isn't too late  
We're just a naked  
Just a naked ape
