**We Come To Your Planet**  
by John Johnson

Intro:

We knew that day that we had to leave  
Couldn't go outside there was nothing left to breathe  
The sun was so corrosive it was rotting us inside  
We had to go for a long, long ride

Chorus:

We come to your planet cuz we need air

We cut down all the trees to build our homes  
We come to your planet cuz we need air  
Had lots of children so we wouldn't be alone  
We come to your planet cuz we need air

Refrain:

Oh oh oh we gotta go  
The fields are fallow and the dust is everywhere  
Oh oh oh we gotta go  
The sky is orange and the land is bare

Chorus:

We have chemical inventions for a miracle age  
We come to your planet cuz we need air  
We had war and pollution and fascists and slaves  
We come to your planet cuz we need air

Refrain:

Chorus:

Prepare for liftoff  
10 count down to 2  
Ready

Chorus:

The food chain collapses when all the plants die  
We come to your planet cuz we need air  
Nothing to steal, nothing to buy  
We come to your planet cuz we need air

Refrain:

Chorus:

Close:

Oh oh oh we gotta go  
We come to your planet cuz we need air
