**“What do you want”**  
(John Woog Johnson)

What do you want?  
Do you want me to wash your feet  
Tell you stories at bedtime  
And be someone I'm not  
What do you want?  
Have it all your own way  
Live out your double standard  
Along with everything you got

Chorus:  
What do you want?  
What do you want, want, want  
What do you want?  
What do you want, want, want  
What do you want?  
What do you want?

Verse:  
What do you want?  
Is it just me or am I part of a harem  
Begging at your knee  
What do you think?  
That you can order me around  
Just snap your fingers  
I'll do anything you please

Chorus:

*Verse:*  
What do you want?  
Do you want to be alone?  
Because that's how it will be  
Right after I'm gone  
What do you want?  
Who really gives a damn?  
I'm tired of you and this song is almost done.

Close:  
What do I want?  
I want to be free  
That's all I want?  
You're alive when you're free  
That's what I want

I want to be free  
I want to be me  
I'm gonna get there  
Just wait and see
